- Experience with database technologies, such as MongoDB, Firestore, and Sanity.
- Experience with cloud platforms, such as GCP, Firebase, and AWS.
- Familiarity with agile development methodologies.

CERTIFICATIONS

98-382:MTA: Introduction to Programming using JavaScript
May 2021

Tests knowledge of functions, decisions, loops, document object model, HTML forms, and more.

SUMMARY

Motivated full stack developer with a year of professional experience building and maintaining web applications. Proficient in HTML, CSS, and JavaScript with experience in back-end technologies such as Node.js and Express. Strong problem-solving skills and a passion for continuous learning. Seeking a new opportunity to contribute to the development of innovative and user-friendly web applications.

WORK EXPERIENCE

Sparrow Design

Full Stack Developer | Sarasota FL | March 2022 - Present

- Successfully delivered multiple web development projects on time and within budget.
- Developed mobile applications for a 3,000,000 subscriber YouTuber.
- Significantly reduced code bloat by 75% in some areas while improving readability with reusable methods.
- Received written compliments from clients for exceptional work and quick turnaround times.
- Built apps involving minting and transferring NFTs, HLS video prefetching and streaming, Twilio video calling, Stripe and mobile (iOS and Android) billing, and Stable Diffusion AI image generation.

TeckLink

Frontend Developer | Remote | December 2021 - March 2022

- Developed reusable components with descriptive documentation used massively by the frontend team.
- Mentored front-end team on best practices, resulting in improved team productivity and code quality.

Personal Projects

2020 - Present

- Worked with an open-source community, Devs Us, to maintain and contribute C# projects with Git.
- Built open-source code used by gaming YouTubers with 1,000,000+ subscribers.
- Built an application that will sort 18+ sorting algorithms with 5 visualization types.
- Built a 29.7 kB NPM package with 350+ downloads that generates beautiful dynamically-generated identicons from user-inputted text.
- View my entire portfolio of projects on my personal website: <https://yskkyle.com>.
